ABOUT ME

Enthusiastic Computer Science undergraduate seeking a Backend Developer or Full Stack Developer role to apply strong problem-solving and system-level skills. Passionate about building scalable APIs and secure backend systems using Node.js, Express, and MongoDB. Experienced in leading and contributing to full-stack projects following MVC architecture and modern software development practices.

Continuous learner exploring emerging domains such as Artificial Intelligence and Cybersecurity, constantly enhancing technical knowledge to stay aligned with evolving industry trends.

EDUCATION

Bachelor of Computer Science and Technology (BSc)

Uva Wellassa University
2023 - 2027(Expected)

SKILLS

Teamwork	<div style="width: 80%;"></div>
Communication	<div style="width: 80%;"></div>
Problem Solving	<div style="width: 80%;"></div>
Leadership	<div style="width: 80%;"></div>
Critical Thinking	<div style="width: 80%;"></div>
Data Handling	<div style="width: 80%;"></div>
Time Management	<div style="width: 80%;"></div>

LANGUAGE

- English – Professional Proficiency
- Tamil – Native
- Sinhala – Elementary Proficiency

EXPERIENCE

Project Leader & Backend Developer – LiveOn

2024

- Led a 3-member team to design and develop a full-stack web application for managing blood donations using React.js, PHP, and MySQL.
- Implemented secure user authentication, OTP verification, and hospital, donation requests through text messages
- Collaborated using Git & GitHub, ensuring version control and smooth team coordination.

Independent Developer – E-Commerce Web

2025

- Built a full-stack MERN application featuring dynamic product listings, cart functionality, and secure checkout.
- Designed backend APIs for authentication and order management using Node.js, Express.js, and MongoDB.

Team Contributor – Academic Projects

2023

- Designed and developed a responsive newspaper website using HTML, CSS, and JavaScript.
- Focused on layout design, news categorization, and interactive elements for a user-friendly interface.
- Gained foundational experience in frontend development, UI design, and client-side scripting.

TECHNOLOGIES

- Programming & Scripting:
JavaScript (ES6+), PHP, Python
- Backend Development:
Node.js, Express.js, Django, REST API Development, MVC Architecture, JWT Authentication, API Integration, Authentication & Authorization
- Frontend Development:
React.js, HTML5, CSS3, Tailwind CSS
- Databases:
MySQL, MongoDB, Mongoose (Atlas), Database Schema Design, Query Optimization
- Version Control & Collaboration:
Git, GitHub, GitHub Workflow, Branch Management
- Development Tools & Platforms:
VS Code, Postman, Linux, Command Line, API Testing, Deployment
